- RUGGED, Heavy Gage, Aluminum Construction
- Includes Keyboard
- 101 Keys
- AT / PS2 Compatible
- High Quality Keyswitches
- Tactile Feel
- NUM, Caps & Scroll Lock Lights
- Reasonably Priced

DESCRIPTION

601 and 603 feature a high quality, 101 key keyboard.

The 601 Shelf Mount takes only 1.75" (1U) of vertical rack space and is EIA RS-310C compliant. The keyboard is positioned in front of the rack panels. 601 fits well in systems where the keyboard is used constantly and must be in normal typing position.

603 Panel Mount is a keyboard for rack systems in which the keyboard must be constantly available and flush with the rack panels. 603 meets EIA RS-310C.
