- Self Latching Drawer Retainer
- Cable Follower
- Reasonably Priced

DESCRIPTION

605 features a high quality, 101 key keyboard.

The 605 takes only 1.75" (1U) of vertical rack space and is EIA RS-310C compliant.

A unique front panel and palm rest design provides a large work area for hands and wrists without sharp edges.

605 rolls in and out on heavy duty rack slides. A built in cable follower keeps the output cable from being snagged and provides strain relief for long cable life.

The drawer locks solidly in the extended position for convenient typing. When rolled in, the drawer engages a latch that holds it closed.
